PROFILE

Graduated on 2019, I'm a person with knowledge in software development and its methodologies. Self-Taught y passionate about web development, particularly focused on "React.js" framework. Empathic, eager to learn and face my first challenge in the software industry to grow professionally.

EXPERIENCE

MARVELSITE
WEB Application (https://marvelsite.vercel.app) | 2022
Made under "React" framework using the official Marvel's API. App shows a list of characters in the universe of the famous company, allows to check their detail and specifically search for the desired character.

GUBERNAMENTAL PAGE
WEB Template (https://gvtemplate.vercel.app) | 2022
Template of a webpage for a government entity, initially made with future intentions of presenting it as a freelance project.

TO DO LIST (FRONT TO END)
"Exercise" (https://dailynotes-fullstack.vercel.app) | 2022
Full Stack application made with "Node.js, Express, Mongo DB and React". Backend is deployed using "Heroku".

GIFFYALL
WEB Application (https://giffyall.vercel.app) | 2022
Made under "React" framework using the official Giphy API. Allows you to search or consult trending gifs.

SISCONV
Desktop Application | 2018 - 2019
As part of the final stage of my college career, I did a job in collaboration with the "Municipalidad de 28 de Noviembre", who delivered de necessary requirements to design and code a debt payment system with "JAVA".
